Awesome!

Does this make sense?

All columns are from the AM&PM Mean tab of the workbook:

Thanks. When you get a chance, please designated exactly which columns you want to see depicted in the graphs. I'm building out the mock up. Here's a screen shot so far. (it's got dummy data in it so I can test the code) The first row will be numbers the middle row will be pie charts. If you give me thresholds I can also code the numbers to be different colors depending on the criteria you set. Because there are several different columns in your excel that could work, I need you to tell me which data you want depicted where (and if it's easier feel free to print this out and write it on there)

Hospital Capacity Dashboard

Emergency Department	Admissions	Inpatients
COVID Positive Patients Seen in ED	COVID Positive Admissions	COVID Positive Inpatients
Medical Surgical Beds	**ICU Beds**	**Ventilations**
Available, covid positive and other	Available, covid positive and other	Available, covid positive and other

COVID + Line Chart

My First dataset   My Second dataset

Oops, sorry. See attached.

Thanks!

Hi John,

Can you send me the current data for the hospital capacity stuff? I'll get it loaded to WebEOC . I'm in the process of building the dashboard. I'm hoping to have something for you to look at by the end of the week.
